

It's the first day of classes! 🙌

Here's how to get started.

THE FIRST DAY OF CLASS IS HERE

Hit the Ground Running

The first day of class is full of exciting possibilities—and a few jitters too. We're here to put your mind at ease and help you get off to a great start!

First, add your course calendars to your personal calendar so you stay on top of important dates.

Next, check out your orientation video. This will give you the low-down on how to get started on your courses.

Then, it's time to get to work! Maybe you want to ease in with the course you feel the most confident about. Or you can dive into the course that seems the most daunting, and maybe discover it's not as scary as you thought it'd be.

Whatever course you choose, it's just important that you get started. And we'll be here for you every step of the way. Let's do this!
