EARN POINTS + MAKE FRIENDS

Your Participation Points Primer

Learning is better together. That's why every Degrees+ course includes a Yellowdig community. Here, you'll discuss course materials with your classmates to earn participation points worth 5% of your course grade. (FYI, if you don't participate in the Yellowdig community within the first two weeks of class then you may be Unofficially Withdrawn from your course.)

You can access the Yellowdig community through the dropdown menu in the upper right corner of your Student Dashboard once your course begins. Then start racking up those valuable participation points!

You can also join the larger learning community in Discord for lively discussions, networking, and socializing with your fellow Degrees+ students. There are no participation points to be earned on Discord, but we've seen heartwarming moments arise and friendships develop here.
